

Solace® 1.5H-EC

Fresh Air Appliance (FAA/HRV)

Product #: 463315

Greentek's most efficient series yet! The Solace 1.5H-EC is ideal for high-rise apartment applications, condominiums, single and multi family homes. With a completely new design, the Solace 1.5H-EC features a Counterflow core, round metal collars, and a high efficiency rating!

EC motors use intelligent technology with integral electronic controls to ensure energy savings no matter what the airflow demands. Reduced energy usage results in lower operating costs. The motors develop less heat so significantly less maintenance is needed and the lifetime of the motor is increased.

Fans

Two (2) electronically commutated motors. The EC fans operate at high efficiency levels and offer a great energy-saving potential not only at full load, but especially at part-load. When operating at part-load, the energy used is much lower than with an AC motor of equivalent output. Reduced energy usage guarantees a drop in operating costs.

Heat Recovery Core

Counterflow heat recovery exchanger built from thermoformed polymer plates covered by a limited lifetime warranty. Core dimensions are 14.4" x 14.4" (366 x 366 mm) with a 12" (305 mm) depth. Our heat exchangers are designed and manufactured to withstand extreme temperature variations.

Winterguard™ Defrost

The unit incorporates a unique and quiet internal recirculation defrost that does not depressurize the home during the defrost cycle. A preset defrost sequence is activated when the outdoor temperature falls below 23° F (-5° C) and automatically adjusts itself based on operating conditions. The fan speed is also adjusted automatically to provide a smooth and quiet transition between Ventilation & Defrost mode.

Serviceability

Core, filters, fans and electronic panel can be accessed easily from the access panel. Core conveniently slides out with only 14" (355 mm) clearance.

Duct Connections

6" (152mm) round metal duct connections with rubberized seal.

Case

22 gauge galvanized pre-painted steel corrosion resistant

Insulation

Cabinet is fully insulated with 3/4" (20 mm) high density expanded polystyrene.

Filters

Two (2) washable electrostatic panel type air filters 7.87" (200mm) x 11.81" (300mm) x 0.125" (3mm).

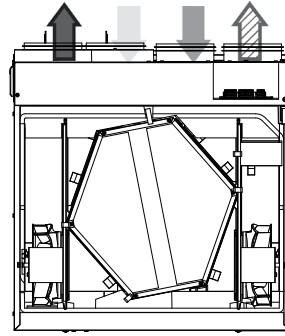

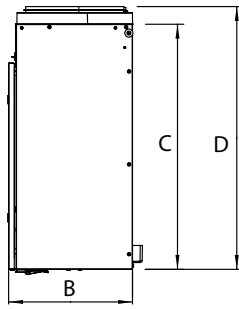

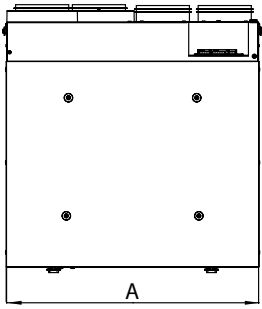

Balancing and commissioning

Balancing must be completed using the Greentek STS 2.0 Programmable Touch Screen Wall Control

Warranty

Limited lifetime on counterflow exchanger, 7 year on motors, and 5 year on parts.
